

LOSS PREVENTION: ASSET MANAGEMENT

Improve operational efficiency and loss prevention by eliminating manual management of the check-out and check-in process. We provide intelligent asset management units that are flexible and modular, and can automatically manage hand-held devices, voice and radio equipment and other key assets at strategic locations conveniently placed around your stockrooms and warehouses.

Our secure, self-serve asset vending unit automatically dispenses, monitors and manages essential equipment and key devices around your stockrooms and warehouses. The unit's design and smart software makes it easy to use. It also can manage compliance, calibration, certification and warranty issues.

Your self-service and automated technology specialists, providing happier, higher spending shoppers and lower operational costs.

Example Benefits

- ▶ **100% traceability**
- ▶ **50% loss reduction**
- ▶ **Extra 20 mins use daily**
 - Average 20 extra minutes use per device/per day, due to queue (wait time) reduction and in-locker charging
 - They enable 100% traceability of all assets not returned, with visibility of ownership, typically reducing asset losses and damages by 50% over 12 months

50%

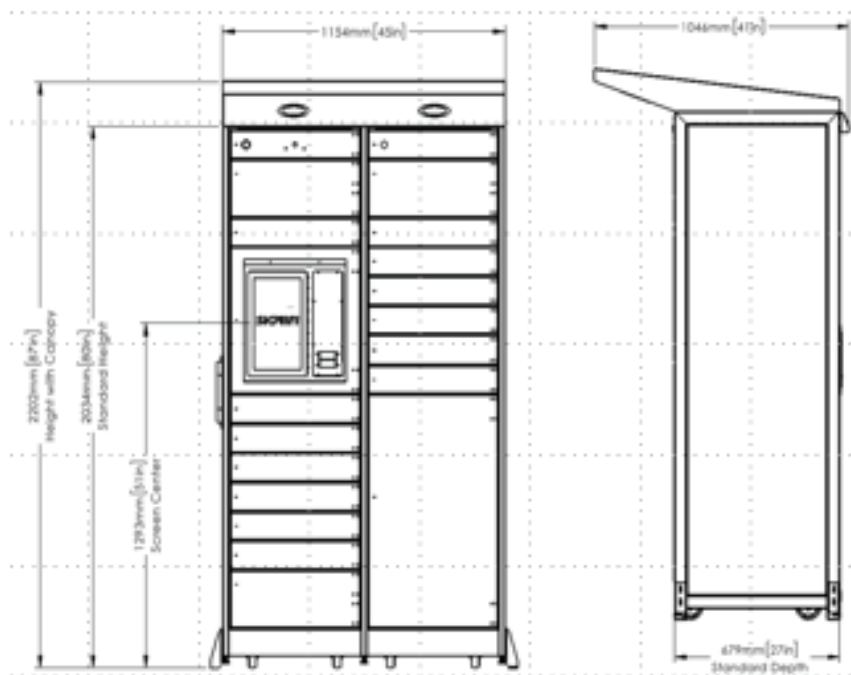

Reduction in asset losses
over 12 months

LOSS PREVENTION: ASSET MANAGEMENT

We have a wide range of standard asset management components, or we can provide you with a custom design if the standard range does not quite meet your requirements.

Get in touch with us to talk about your exact requirements and our friendly sales team will be happy to assist and guide you to ensure that you get the best solution for your needs.
