

# VENDING & LOCKER SOLUTIONS

Automated vending solutions can extend and improve your product offer, staff-free. They provide a secure self-service option for high value and vulnerable goods. Our order pick-up / click & collect lockers transform the way stores and customers interact. They also provide secure automated dispensing for IT and other high value equipment in stockrooms and warehouses.

Large differences in footfall through the day means that many retailers struggle to provide a consistent, satisfactory level of service, resulting in lost sales and unhappy customers.

Our flexible, fully integrated smart vending and locker systems enable customers to browse, purchase and collect products without the support of staff.

---

**Your self-service and automated technology specialists, providing happier, higher spending shoppers and lower operational costs.**

## Example Benefits

- ▶ **Grow sales, staff free**
- ▶ **Increase throughput**
